GEORGE'S STORY

Meet George. He is an **active volunteer** under our **Development Aid Support Mechanism**. He is interested in solving development issues' and is dedicated to his local community in **Ogembo**, which is small farming town in **Kisii County in Kenya**. He firmly believes that all local community members have the right to know and understand MDGs and SDGs, and their own roles in the achievement of these universal goals.

George benefits from our **StayConnecteD4Dev online cloud platform**, where he learns, improves his skills, interacts with others, discusses, uses uploaded files, watches videos, and discovers lessons learned in the field of development. Thanks to StayConnecteD4Dev, he is able to support people on the ground as one of our active volunteers!

The screenshot displays the 'SDGs - materials for teachers' section of the StayConnecteD4Dev platform. It features three thumbnail images representing different materials, followed by a 'View All (3)' link. Below this is the 'Video materials' section, which includes four video thumbnails (one partially visible) and a 'View All (4)' link. The final section is 'Infographics, Articles, Guides and more', showing three thumbnail images and a 'View All (3)' link. The interface uses a clean, white background with blue and orange accents.

Under the **guidance of our local managers** in the **Field Development Support network**, George has organized several workshops and trainings on MDGs and SDGs for people in his community in **Ogembo**. He has shared with them knowledge and information he gained on the **StayConnecteD4Dev cloud platform**, as well as hard copies of helpful materials. In the spirit of leaving no one behind, his goal is to empower local people to take action for the achievement of these global goals.

George has also gathered data about the current development situation in his own community in **Ogembo** and his local community's needs. Consequently, data will be transferred into a K4DWB's case study and will help facilitate development interventions and in achieving the SDG goal of accomplishing quality education for all.

The Development Aid Support Mechanism is a means of motivating local people to get involved in creating solutions to development issues.
